GET INVOLVED WITH BBE

DEPARTMENT OF BIOPRODUCTS & BIOSYSTEMS ENGINEERING

Education, research and outreach, centered around the sustainable use of renewable resources and enhancement of the environment.

Undergraduate programs:
- Bioproducts & Biosystems Engineering
- Sustainable Systems Management

Graduate program:
- Bioproducts & Biosystems Science, Engineering, and Management

HOW TO GET INVOLVED?

Become a member of the advisory council and board of directors. Play an active role in one of the committees: Student Recruitment and Retention; Academic Advisory; Scholarship and External Relations.

Recruit students for internship, co-op and full time job opportunities.
Participate in the on-campus Career Fair and options for individualized interviews and information sessions within the department.

Student Mentorship
It’s all about the STUDENTS! Help contribute to the success of our students. Actively mentor one of our students to enhance the quality of talent coming into the industry and profession, while helping them achieve their full potential.

Capstone Design
Get involved in the senior capstone experience by proposing real-world project ideas, serving as an industry advisor, help students build confidence, and gain experience.

Scholarship and Fellowship
Provide scholarship and fellowship support to help highly qualified and well deserving students the opportunity for college education. Make a difference in their lives!

Support Research
Get involved in research, or fund research projects that will benefit your organization. Help support a graduate student gain valuable research experience and pursue career in research.

WHY GET INVOLVED?

- Develop the future workforce and leaders
- Help shape the curriculum and education of students
- Mentor students, helping them achieve their career goals; connect with students early in their college careers
- Help with recruiting and retaining best and brightest students
- Work with BBE Faculty and students on cutting-edge research
- Professional networking with peers and industry leaders

BE THE DIFFERENCE IN BBE

“What will getting involved with BBE provide you? It will provide bright, engaged, well educated, young people to bring into your organization. In addition, it will energize you to be engaged with a very student oriented faculty, focused on teaching, and also cutting edge research.”
- Bruce Johnson, President of Viking Forest Products & BBE Advisory Board Chair
